

East Side Firefighters Association Job Description for Volunteer Firefighter

## **Purpose of position:**

Performing fire suppression, prevention, life safety duties, and other duties as assigned.

## **Summary of Essential Duties:**

Firefighting is skilled work, with an emphasis on combating, extinguishing and preventing fires; answering emergency calls and maintenance of fire department equipment, apparatus, and facilities.

The work involves training and participation in duties protecting lives and property by fire fighting and rescue activities, usually under close supervision. Members are required to learn and participate in the operation of the apparatus and the performance of hazardous tasks under emergency conditions, which may require strenuous exertion under such handicaps as heat, smoke, and cramped surroundings.

Although firefighting and rescue work are most difficult and responsible areas of activity, a portion of time is spent drilling and studying methods, techniques, and organization, and routine duties in the care and maintenance of fire department property and equipment. Superior officers give specific orders and directions, but work requires initiative and a thorough individual understanding of firefighting methods.

Essential working conditions and physical requirements may be affected by, but not limited to the following environmental factors:

- a. Operate both as a member of a team and independently at incidents of uncertain duration.
- b. Spend extensive time outside exposed to the elements.
- c. Tolerate extreme fluctuations in temperature while performing duties. Must perform physically demanding work in hot (up to 400 degrees), humid (up to 100%) atmospheres while wearing equipment that significantly impairs body-cooling mechanisms.
- d. Experience frequent transition from hot to cold and from humid to dry atmospheres.
- e. Work in wet, icy or muddy areas.
- f. Perform a variety of tasks on slippery, hazardous surfaces such as rooftops or from ladders.
- g. Work in areas where sustaining traumatic or thermal injuries is possible.
- h. Face exposure to infectious agents such as Hepatitis B or HIV.
- i. Face exposure to carcinogenic dusts such as asbestos, toxic substances such as hydrogen cyanide, carbon monoxide, or organic solvents either inhalation or skin contact.
- j. Wear personal protection equipment that weighs approximately 50 lbs. while performing these tasks.
- k. Perform physically demanding work while wearing positive pressure breathing equipment with 1.5 inches of water column resistance to exhalation at a flow of 40 liters per minute.
- 1. Perform complex tasks during life-threatening emergencies.

- m. Work for long periods of time, requiring sustained physical activity and intense concentration.
- n. Face life or death decisions during emergency conditions.
- o. Exposed to grotesque sights and smells associated with major trauma and burn victims.
- p. Make rapid transitions from rest to near maximal exertion without warm-up periods.
- q. Operate in environments of high noise, poor visibility, limited mobility, at heights and in enclosed or confined spaces.
- r. Use manual and power tools in the performance of duties.
- s. Rely on speech, as well as senses of sight, hearing, smell and touch to help determine the nature of the emergency, maintain personal safety, and make critical decisions in a confused, chaotic and potentially life threatening environment throughout the duration of the operation.
- t. Lift varying weights and carry said weights, without stopping, for various distances.
- u. Perform daily cleaning and minor maintenance of station and living quarters including sweeping, mopping, cleaning windows, cleaning restrooms, washing dishes, trash removal and other types of routine maintenance.
- v. Operate and maintain machinery such as chain saws, pumps, extrication tools, etc.
- w. Perform inspections and inventories of apparatus such as trucks. Equipment must be maintained in clean, stocked, working order. If equipment is found to be not functional, notify the Shift Commander.
- x. Perform other duties that may be assigned by the Fire Chief or Assistant Fire Chief.

## Minimum Qualifications:

-Be 18 years of age or older

- -Have a valid driver's license
- -Have a reliable means of transportation
- -Have proof of valid automobile registration and proof of insurance
- -Have no felony convictions
- -Ability to learn firefighting skills, CPR, apparatus equipment and maintenance, etc.
- -Live within the boundaries of the East Side Fire Protection District or within a 4 mile radius of either Engine House

### **Attendance Requirements:**

Respond to a minimum of 20% of all calls. Attend a minimum of 24 training drills per year. Attend a minimum of 9 business meetings per year.

### **Certification:**

I acknowledge that I have read the duties, responsibilities, and inherent dangers of becoming a volunteer firefighter.
